

Curriculum Details — BCA

Programme: Bachelor of Computer Applications (BCA)

Programme Type: Undergraduate

Duration: 3 Years / 6 Semesters

Year	Odd Semester	Even Semester
1st Year	Semester I — Programming Fundamentals, Computer Fundamentals, Mathematics, Digital Logic, Communication Skills	Semester II — Data Structures, Object-Oriented Programming, Database Management Systems, Operating Systems, Web Technologies
2nd Year	Semester III — Computer Networks, Software Engineering, Advanced Database Systems, Java Programming, Statistics	Semester IV — Python Programming, Computer Graphics, Web Development, System Analysis & Design, Elective
3rd Year	Semester V — Artificial Intelligence, Cloud Computing, Cyber Security, Mobile Application Development, Project Work	Semester VI — Machine Learning, Advanced Web Technologies, Internship, Major Project, Professional/Elective Courses

Programme Specialization:

- **BCA — General**
- **BCA — Artificial Intelligence & Machine Learning**
- **BCA — Data Science**
- **BCA — Cloud Computing**
- **BCA — Cyber Security**
- **BCA — Full Stack Development**

Curriculum Details — B.Tech

Programme: Bachelor of Technology (B.Tech)

Programme Type: Undergraduate

Duration: 4 Years / 8 Semesters

Year	Odd Semester	Even Semester
1st Year	Semester I — Engineering Mathematics I, Engineering Physics/Chemistry, Programming Fundamentals, Basic Electrical Engineering, Engineering Graphics, Communication Skills	Semester II — Engineering Mathematics II, Engineering Physics/Chemistry, Data Structures, Basic Electronics, Environmental Science, Workshop/Engineering Practice
2nd Year	Semester III — Engineering Mathematics III, Object-Oriented Programming, Digital Electronics, Computer Organization, Discrete Mathematics, Departmental Core Courses	Semester IV — Operating Systems, Database Management Systems, Computer Networks, Probability & Statistics, Software Engineering, Departmental Core/Elective
3rd Year	Semester V — Design & Analysis of Algorithms, Web Technologies, Artificial Intelligence, Theory of Computation, Departmental Electives, Mini Project	Semester VI — Machine Learning, Cloud Computing, Cyber Security, Compiler Design, Open Elective, Internship/Project
4th Year	Semester VII — Advanced Departmental Courses, Professional Electives, Open Elective, Major Project Phase I, Seminar	Semester VIII — Major Project Phase II, Internship/Industry Training, Professional Electives, Entrepreneurship/Professional Skills

Programme Specialization

- **B.Tech — Computer Science & Engineering (CSE)**
- **B.Tech — Artificial Intelligence & Machine Learning**
- **B.Tech — Information Technology**
- **B.Tech — Electronics & Communication Engineering (ECE)**
- **B.Tech — Electrical Engineering (EE)**

- **B.Tech — Mechanical Engineering (ME)**
- **B.Tech — Civil Engineering (CE)**
- **B.Tech — Data Science**
- **B.Tech — Cyber Security**

Curriculum Details — BBA

Programme: Bachelor of Business Administration (BBA)

Programme Type: Undergraduate

Duration: 3 Years / 6 Semesters

Year	Odd Semester	Even Semester
1st Year	Semester I — Principles of Management, Business Economics, Financial Accounting, Business Communication, Business Mathematics, Computer Applications in Business	Semester II — Organizational Behaviour, Business Environment, Marketing Management, Cost & Management Accounting, Business Statistics, Human Resource Management
2nd Year	Semester III — Financial Management, Consumer Behaviour, Operations Management, Business Law, Research Methodology, Entrepreneurship Development	Semester IV — Corporate Finance, Sales & Distribution Management, Production & Operations Management, Company Law, Management Information Systems, Elective Course
3rd Year	Semester V — Strategic Management, International Business, Digital Marketing, Project Management, Entrepreneurship, Specialization Elective	Semester VI — Business Policy, E-Commerce, Corporate Governance, Investment Management, Internship/Project Work, Major Project/Viva

Programme Specialization:

- **BBA — General Management**
- **BBA — Finance**
- **BBA — Marketing**
- **BBA — Human Resource Management**
- **BBA — International Business**
- **BBA — Entrepreneurship**
- **BBA — Digital Marketing**
- **BBA — Business Analytics**
- **BBA — Banking & Finance**
- **BBA — Logistics & Supply Chain Management**

Curriculum Details — Bachelor of Emergency Medical Technology

Programme: Bachelor of Emergency Medical Technology (BEMT)

Programme Type: Undergraduate

Duration: 4 Years / 8 Semesters

Year	Odd Semester	Even Semester
1st Year	Semester I — Human Anatomy, Human Physiology, Biochemistry, Basic Medical Terminology, Fundamentals of Emergency Care, Communication Skills	Semester II — Pathology, Microbiology, Pharmacology, Basic Life Support, First Aid & Patient Safety, Introduction to Emergency Medicine
2nd Year	Semester III — Emergency Medical Procedures, General Medicine, General Surgery, Emergency Pharmacology, Patient Assessment, Medical Ethics & Professional Practice	Semester IV — Trauma & Orthopedic Emergencies, Cardiovascular Emergencies, Respiratory Emergencies, Neurological Emergencies, Advanced Life Support, Clinical Practicum
3rd Year	Semester V — Critical Care Technology, Pediatric Emergencies, Obstetric & Gynecological Emergencies, Toxicology & Poisoning, Disaster Management, Emergency Department Management	Semester VI — Intensive Care Unit Management, Pre-Hospital Emergency Care, Advanced Trauma Life Support, Emergency Diagnostics, Ambulance & Transport Medicine, Clinical Internship
4th Year	Semester VII — Advanced Emergency Care, Critical Care Procedures, Disaster & Mass Casualty Management, Emergency Medical Systems, Research Methodology, Elective	Semester VIII — Major Clinical Internship, Emergency Department Training, Pre-Hospital Care Training, Research Project/Dissertation, Case Presentation, Viva Voce

Programme Specialization:

- **BEMT — Emergency Medical Technology**
- **BEMT — Emergency & Trauma Care**
- **BEMT — Critical Care**
- **BEMT — Pre-Hospital Emergency Care**
- **BEMT — Disaster & Emergency Management**

Curriculum Details — Bachelor of Dialysis Therapy Technology

Programme: Bachelor of Dialysis Therapy Technology (BDTT)

Programme Type: Undergraduate

Duration: 4 Years / 8 Semesters

Year	Odd Semester	Even Semester
1st Year	Semester I — Human Anatomy, Human Physiology, Biochemistry, Medical Terminology, Fundamentals of Dialysis Technology, Communication Skills	Semester II — Pathology, Microbiology, Pharmacology, Nutrition & Dietetics, Introduction to Renal Diseases, Basic Patient Care
2nd Year	Semester III — Nephrology, Renal Physiology, Dialysis Principles & Procedures, Dialysis Equipment & Maintenance, Clinical Pathology, Medical Ethics	Semester IV — Hemodialysis Technology, Peritoneal Dialysis, Water Treatment & Purification, Dialysis Pharmacology, Infection Control, Clinical Practicum
3rd Year	Semester V — Advanced Hemodialysis, Vascular Access Management, Acute Kidney Injury, Chronic Kidney Disease, Dialysis Complications, Critical Care	Semester VI — Pediatric Dialysis, Renal Transplantation, Emergency Management in Dialysis, Dialysis Machine Technology, Patient Monitoring, Clinical Internship
4th Year	Semester VII — Advanced Dialysis Technology, ICU & Critical Care Dialysis, Continuous Renal Replacement Therapy, Dialysis Unit Management, Research Methodology, Professional Practice	Semester VIII — Major Clinical Internship, Advanced Dialysis Procedures, Dialysis Unit Administration, Research Project/Dissertation, Case Presentation, Viva Voce

Programme Specialization:

- **BDTT — Dialysis Therapy Technology**
- **BDTT — Hemodialysis Technology**
- **BDTT — Advanced Dialysis & Critical Care**
- **BDTT — Renal Care Technology**
- **BDTT — Nephrology & Dialysis Technology**

Curriculum Details — Bachelor of Medical Laboratory Science

Programme: Bachelor of Medical Laboratory Science (BMLS)

Programme Type: Undergraduate

Duration: 4 Years / 8 Semesters

Year	Odd Semester	Even Semester
1st Year	Semester I — Human Anatomy, Human Physiology, Biochemistry, Medical Terminology, Fundamentals of Medical Laboratory Science, Communication Skills	Semester II — General Pathology, Basic Microbiology, Basic Biochemistry, Laboratory Safety & Biosafety, Hematology Fundamentals, Basic Patient Care
2nd Year	Semester III — Clinical Biochemistry, Hematology, Clinical Pathology, Medical Microbiology, Immunology, Laboratory Instrumentation	Semester IV — Advanced Hematology, Clinical Microbiology, Histopathology, Immunohematology & Blood Banking, Parasitology, Clinical Laboratory Practicum
3rd Year	Semester V — Advanced Clinical Biochemistry, Diagnostic Microbiology, Histotechnology, Cytology, Molecular Diagnostics, Laboratory Quality Management	Semester VI — Clinical Immunology, Transfusion Medicine, Molecular Biology, Advanced Diagnostic Techniques, Laboratory Management, Clinical Internship
4th Year	Semester VII — Advanced Medical Laboratory Techniques, Clinical Research Methodology, Laboratory Quality Assurance, Automation in Medical Laboratories, Public Health Laboratory Science, Elective	Semester VIII — Major Clinical Internship, Advanced Laboratory Practice, Research Project/Dissertation, Laboratory Management & Administration, Case Studies, Viva Voce

Programme Specialization

Possible specialization options:

- **BMLS — Medical Laboratory Science**
- **BMLS — Clinical Laboratory Science**
- **BMLS — Clinical Biochemistry**
- **BMLS — Medical Microbiology**
- **BMLS — Hematology & Blood Banking**
- **BMLS — Histopathology & Cytology**
- **BMLS — Molecular Diagnostics**
