

Curriculum Details — B.Sc. Nursing

Programme: Bachelor of Science in Nursing (B.Sc. Nursing)

Programme Type: Undergraduate

Duration: 4 Years / 8 Semesters

Year	Odd Semester	Even Semester
1st Year	Semester I — Anatomy, Physiology, Biochemistry, Nursing Foundations, Psychology, Introduction to Nursing Education, Communication & Educational Technology	Semester II — Nutrition & Dietetics, Sociology, Nursing Foundations II, Microbiology, Pharmacology, Health Assessment & Nursing Procedures
2nd Year	Semester III — Medical-Surgical Nursing I, Pharmacology & Pathology, Community Health Nursing I, Sociology & Psychology, Nursing Research Fundamentals	Semester IV — Medical-Surgical Nursing II, Pharmacology, Community Health Nursing II, Child Health Nursing, Nursing Education & Administration
3rd Year	Semester V — Child Health Nursing, Mental Health Nursing, Midwifery & Obstetrical Nursing, Community Health Nursing, Nursing Research & Statistics	Semester VI — Midwifery & Obstetrical Nursing II, Mental Health Nursing II, Medical-Surgical Nursing III, Community Health Nursing, Nursing Management
4th Year	Semester VII — Nursing Management & Administration, Nursing Education, Advanced Medical-Surgical Nursing, Community Health Nursing, Clinical Practicum	Semester VIII — Internship, Community Health Nursing Practice, Medical-Surgical Nursing Practice, Child Health Nursing Practice, Mental Health Nursing Practice, Midwifery Practice, Comprehensive Viva

Programme Specialization

Possible specialization options:

- **B.Sc. Nursing — General Nursing**
- **B.Sc. Nursing — Medical-Surgical Nursing**
- **B.Sc. Nursing — Community Health Nursing**
- **B.Sc. Nursing — Child Health Nursing**

- **B.Sc. Nursing — Mental Health Nursing**
- **B.Sc. Nursing — Obstetrics & Gynecological Nursing**
- **B.Sc. Nursing — Critical Care Nursing**

Curriculum Details — Post Basic B.Sc. Nursing

Programme: Post Basic Bachelor of Science in Nursing (P.B.B.Sc. Nursing)

Programme Type: Undergraduate / Post-Basic

Duration: 2 Years / 4 Semesters

Year	Odd Semester	Even Semester
1st Year	Semester I — Nursing Foundation, Advanced Nursing Practice, Nursing Education, Nutrition & Dietetics, Biostatistics & Research Methodology, Maternal Nursing	Semester II — Child Health Nursing, Mental Health Nursing, Community Health Nursing, Medical-Surgical Nursing, Nursing Administration & Management, Clinical Practicum
2nd Year	Semester III — Advanced Medical-Surgical Nursing, Community Health Nursing, Nursing Research & Statistics, Nursing Education & Administration, Clinical Practicum, Elective	Semester IV — Nursing Management, Advanced Clinical Nursing Practice, Community Health Practice, Research Project/Dissertation, Comprehensive Clinical Practicum, Viva Voce

Programme Specialization

Possible specialization options:

- **Post Basic B.Sc. Nursing — General Nursing**
- **Post Basic B.Sc. Nursing — Medical-Surgical Nursing**
- **Post Basic B.Sc. Nursing — Community Health Nursing**
- **Post Basic B.Sc. Nursing — Child Health Nursing**
- **Post Basic B.Sc. Nursing — Mental Health Nursing**
- **Post Basic B.Sc. Nursing — Obstetric & Gynecological Nursing**
- **Post Basic B.Sc. Nursing — Critical Care Nursing**

Curriculum Details — B.Sc. Biotechnology

Programme: Bachelor of Science in Biotechnology (B.Sc. Biotechnology)

Programme Type: Undergraduate

Duration: 3 Years / 6 Semesters

Year	Odd Semester	Even Semester
1st Year	Semester I — Cell Biology, Biochemistry, Microbiology, General Biology, Chemistry, Fundamentals of Biotechnology	Semester II — Molecular Biology, Genetics, Microbial Physiology, Biostatistics, Bioinformatics Fundamentals, Laboratory Techniques
2nd Year	Semester III — Genetic Engineering, Immunology, Plant Biotechnology, Animal Biotechnology, Enzymology, Molecular Biology Techniques	Semester IV — Recombinant DNA Technology, Fermentation Technology, Industrial Biotechnology, Environmental Biotechnology, Bioinformatics, Cell Culture Techniques
3rd Year	Semester V — Advanced Genetic Engineering, Medical Biotechnology, Pharmaceutical Biotechnology, Genomics & Proteomics, Bioprocess Engineering, Research Methodology	Semester VI — Advanced Biotechnology, Nanobiotechnology, Food Biotechnology, Agricultural Biotechnology, Entrepreneurship & Intellectual Property Rights, Major Project/Dissertation

Programme Specialization

Possible specialization options:

- **B.Sc. Biotechnology — General**
- **B.Sc. Biotechnology — Medical Biotechnology**
- **B.Sc. Biotechnology — Industrial Biotechnology**
- **B.Sc. Biotechnology — Agricultural Biotechnology**
- **B.Sc. Biotechnology — Pharmaceutical Biotechnology**
- **B.Sc. Biotechnology — Molecular Biology & Genetic Engineering**
- **B.Sc. Biotechnology — Bioinformatics**
- **B.Sc. Biotechnology — Environmental Biotechnology**

Curriculum Details — B.Sc. Microbiology

Programme: Bachelor of Science in Microbiology (B.Sc. Microbiology)

Programme Type: Undergraduate

Duration: 3 Years / 6 Semesters

Year Odd Semester

Semester I — Fundamentals of
1st Microbiology, Cell Biology, General
Year Chemistry, Biochemistry, Basic Biology,
Microbiology Laboratory Techniques

Semester III — Bacteriology, Virology,
2nd Mycology, Immunology, Microbial
Year Genetics, Microbial Physiology

Semester V — Molecular Biology, Clinical
3rd Microbiology, Pharmaceutical
Year Microbiology, Industrial Biotechnology,
Microbial Technology, Research
Methodology

Even Semester

Semester II — Microbial Diversity, Microbial
Physiology, Genetics, Biochemistry, Basic
Immunology, Microbiology Practical

Semester IV — Medical Microbiology,
Industrial Microbiology, Environmental
Microbiology, Parasitology, Food & Dairy
Microbiology, Microbial Biotechnology

Semester VI — Advanced Microbiology,
Applied Microbiology, Immunotechnology,
Molecular Diagnostics, Bioinformatics, Major
Project/Dissertation

Programme Specialization

Possible specialization options:

- **B.Sc. Microbiology — General Microbiology**
- **B.Sc. Microbiology — Medical Microbiology**
- **B.Sc. Microbiology — Industrial Microbiology**
- **B.Sc. Microbiology — Clinical Microbiology**
- **B.Sc. Microbiology — Food & Dairy Microbiology**
- **B.Sc. Microbiology — Environmental Microbiology**
- **B.Sc. Microbiology — Microbial Biotechnology**
- **B.Sc. Microbiology — Molecular Microbiology**

Curriculum Details — B.Sc. Food Science and Technology

Programme: Bachelor of Science in Food Science and Technology (B.Sc. FST)

Programme Type: Undergraduate

Duration: 3 Years / 6 Semesters

Year	Odd Semester	Even Semester
1st Year	Semester I — Fundamentals of Food Science, Food Chemistry, Basic Microbiology, Human Nutrition, Food Processing Fundamentals, Food Science Laboratory	Semester II — Food Microbiology, Food Biochemistry, Food Preservation, Food Processing Technology, Food Analysis, Food Processing Laboratory
2nd Year	Semester III — Cereals & Grain Technology, Fruits & Vegetable Processing, Dairy Technology, Meat & Fish Processing, Food Engineering, Food Quality Control	Semester IV — Bakery & Confectionery Technology, Beverage Technology, Fermentation Technology, Food Packaging, Food Safety & Hygiene, Sensory Evaluation
3rd Year	Semester V — Advanced Food Processing, Food Biotechnology, Functional Foods & Nutraceuticals, Food Additives, Quality Assurance & HACCP, Research Methodology	Semester VI — Food Product Development, Industrial Food Processing, Food Regulations & Standards, Supply Chain & Cold Chain Management, Entrepreneurship, Major Project/Industrial Training

Programme Specialization

Possible specialization options:

- **B.Sc. Food Science & Technology — General**
- **B.Sc. Food Technology — Food Processing**
- **B.Sc. Food Technology — Food Safety & Quality Assurance**
- **B.Sc. Food Technology — Dairy Technology**
- **B.Sc. Food Technology — Meat & Fish Technology**
- **B.Sc. Food Technology — Bakery & Confectionery**
- **B.Sc. Food Technology — Food Biotechnology**
- **B.Sc. Food Technology — Nutrition & Functional Foods**

Curriculum Details — B.Sc. Forensic Science

Programme: Bachelor of Science in Forensic Science (B.Sc. Forensic Science)

Programme Type: Undergraduate

Duration: 3 Years / 6 Semesters

Year Odd Semester

Semester I — Introduction to Forensic Science, General Chemistry, Biology, Physics, Criminalistics, Forensic Science Laboratory Techniques

Semester III — Forensic Toxicology, Forensic Serology, Questioned Documents, Ballistics & Firearms, Photography & Crime Scene Documentation, Evidence Handling

Semester V — Advanced Forensic Toxicology, Cyber & Digital Forensics, Forensic Instrumentation, Explosives & Arson Investigation, Forensic Medicine, Research Methodology

Even Semester

Semester II — Forensic Chemistry, Forensic Biology, Crime Scene Investigation, Criminal Law & Criminal Justice System, Fingerprint Science, Forensic Laboratory Practical

Semester IV — DNA Forensics, Digital Forensics Fundamentals, Forensic Anthropology, Forensic Odontology, Forensic Psychology, Advanced Crime Scene Investigation

Semester VI — Advanced Criminalistics, Cybercrime Investigation, Forensic DNA Analysis, Forensic Quality Management, Expert Testimony & Court Procedures, Major Project/Dissertation

Programme Specialization

Possible specialization options:

- **B.Sc. Forensic Science — General**
- **B.Sc. Forensic Science — Criminalistics**
- **B.Sc. Forensic Science — Digital & Cyber Forensics**
- **B.Sc. Forensic Science — Forensic Biology & DNA**
- **B.Sc. Forensic Science — Forensic Chemistry & Toxicology**
- **B.Sc. Forensic Science — Questioned Documents**
- **B.Sc. Forensic Science — Forensic Psychology**
- **B.Sc. Forensic Science — Crime Scene Investigation**

Curriculum Details — B.Tech. in Civil Engineering

Programme: Bachelor of Technology in Civil Engineering (B.Tech. Civil Engineering)

Programme Type: Undergraduate

Duration: 4 Years / 8 Semesters

Minimum Qualification: 12th Standard

Year	Odd Semester	Even Semester
1st Year	Semester I — Engineering Mathematics I, Engineering Physics, Engineering Chemistry, Basic Electrical Engineering, Engineering Graphics, Programming Fundamentals	Semester II — Engineering Mathematics II, Engineering Mechanics, Basic Electronics, Environmental Science, Workshop Practice, Communication Skills
2nd Year	Semester III — Strength of Materials, Fluid Mechanics, Surveying, Building Materials & Construction, Engineering Geology, Concrete Technology	Semester IV — Structural Analysis I, Geotechnical Engineering I, Hydraulics, Transportation Engineering I, Engineering Hydrology, Building Services
3rd Year	Semester V — Structural Analysis II, Reinforced Cement Concrete Design, Geotechnical Engineering II, Transportation Engineering II, Environmental Engineering I, Construction Management	Semester VI — Steel Structure Design, Environmental Engineering II, Foundation Engineering, Water Resources Engineering, Quantity Surveying & Estimation, Elective
4th Year	Semester VII — Advanced Structural Design, Bridge Engineering, Construction Planning & Management, Pavement Design, Earthquake Engineering, Professional Elective	Semester VIII — Major Project, Internship/Industrial Training, Advanced Construction Technology, Professional Elective, Seminar, Comprehensive Viva

Programme Specialization

Possible specialization options:

- **B.Tech Civil Engineering — Structural Engineering**
- **B.Tech Civil Engineering — Geotechnical Engineering**
- **B.Tech Civil Engineering — Transportation Engineering**
- **B.Tech Civil Engineering — Environmental Engineering**
- **B.Tech Civil Engineering — Construction Management**

- **B.Tech Civil Engineering — Water Resources Engineering**
- **B.Tech Civil Engineering — Urban & Infrastructure Planning**

Curriculum Details — B.Tech. in Mechanical Engineering

Programme: Bachelor of Technology in Mechanical Engineering (B.Tech. Mechanical Engineering)

Programme Type: Undergraduate

Duration: 4 Years / 8 Semesters

Minimum Qualification: 12th Standard

Year	Odd Semester	Even Semester
1st Year	Semester I — Engineering Mathematics I, Engineering Physics, Engineering Chemistry, Basic Electrical Engineering, Engineering Graphics, Programming Fundamentals	Semester II — Engineering Mathematics II, Engineering Mechanics, Basic Electronics, Environmental Science, Workshop Practice, Communication Skills
2nd Year	Semester III — Thermodynamics, Engineering Materials, Fluid Mechanics, Manufacturing Processes I, Strength of Materials, Machine Drawing	Semester IV — Heat Transfer, Theory of Machines, Manufacturing Processes II, Applied Thermodynamics, Fluid Machinery, Metrology & Measurements
3rd Year	Semester V — Machine Design I, Internal Combustion Engines, Dynamics of Machinery, Manufacturing Technology, Industrial Engineering, Engineering Economics	Semester VI — Machine Design II, Refrigeration & Air Conditioning, CAD/CAM, Automobile Engineering, Production Planning & Control, Elective
4th Year	Semester VII — Advanced Manufacturing Technology, Finite Element Analysis, Robotics & Automation, Industrial Management, Mechanical Vibrations, Professional Elective	Semester VIII — Major Project, Internship/Industrial Training, Advanced Mechanical Engineering, Professional Elective, Seminar, Comprehensive Viva

Programme Specialization

Possible specialization options:

- **B.Tech Mechanical Engineering — Design Engineering**
- **B.Tech Mechanical Engineering — Manufacturing Engineering**
- **B.Tech Mechanical Engineering — Thermal Engineering**

- **B.Tech Mechanical Engineering — Automobile Engineering**
- **B.Tech Mechanical Engineering — Robotics & Automation**
- **B.Tech Mechanical Engineering — Mechatronics**
- **B.Tech Mechanical Engineering — Industrial Engineering**
- **B.Tech Mechanical Engineering — Renewable Energy**

Curriculum Details — B.Tech. in Computer Science & Engineering (Data Science and Artificial Intelligence)

Programme: Bachelor of Technology in Computer Science and Engineering — Data Science & Artificial Intelligence

Programme Type: Undergraduate

Duration: 4 Years / 8 Semesters

Minimum Qualification: 12th Standard

Year	Odd Semester	Even Semester
1st Year	Semester I — Engineering Mathematics I, Programming Fundamentals, Computer Fundamentals, Engineering Physics, Engineering Chemistry, Communication Skills	Semester II — Engineering Mathematics II, Data Structures, Object-Oriented Programming, Digital Logic Design, Computer Organization, Environmental Science
2nd Year	Semester III — Discrete Mathematics, Database Management Systems, Probability & Statistics, Operating Systems, Python Programming, Data Science Fundamentals	Semester IV — Computer Networks, Design & Analysis of Algorithms, Artificial Intelligence Fundamentals, Machine Learning Fundamentals, Data Visualization, Software Engineering
3rd Year	Semester V — Advanced Machine Learning, Deep Learning, Data Mining, Big Data Analytics, Natural Language Processing, Data Science Laboratory	Semester VI — Computer Vision, Generative AI Fundamentals, Cloud Computing, Distributed Systems, Statistical Learning, Data Engineering & ETL
4th Year	Semester VII — Advanced Artificial Intelligence, Reinforcement Learning, MLOps, Advanced Data Analytics, AI	Semester VIII — Major Project, Industry Internship, Applied AI & Data Science,

Year	Odd Semester	Even Semester
	Ethics & Governance, Professional Elective	Professional Elective, Research/Innovation Project, Comprehensive Viva

Programme Specialization

Possible specialization options:

- **B.Tech CSE — Data Science**
- **B.Tech CSE — Artificial Intelligence**
- **B.Tech CSE — Machine Learning**
- **B.Tech CSE — Big Data Analytics**
- **B.Tech CSE — Data Engineering**
- **B.Tech CSE — Generative AI**
- **B.Tech CSE — AI & Machine Learning**
- **B.Tech CSE — Business Intelligence & Analytics**

Curriculum Details — Bachelor of Optometry

Programme: Bachelor of Optometry (B.Optom)

Programme Type: Undergraduate

Duration: 5 Years

Minimum Qualification: 12th Standard

For a **5-year B.Optom programme**, the curriculum can be structured as **4 years of academic/clinical education + 1 year of compulsory clinical internship**.

Year	Odd Semester	Even Semester
1st Year	Semester I — Human Anatomy, Human Physiology, General Biochemistry, Basic Optics, Introduction to Optometry, Communication Skills	Semester II — Ocular Anatomy & Physiology, Geometrical Optics, Physical & Physiological Optics, General Pathology, Microbiology, Clinical Optometry Fundamentals
2nd Year	Semester III — Ocular Diseases I, Optometric Instruments, Ophthalmic	Semester IV — Ocular Diseases II, Visual Optics, Binocular Vision, Contact Lens

	Year Odd Semester	Even Semester
	Optics, Pharmacology, Clinical Examination Techniques, Contact Lens Fundamentals	Practice, Low Vision Care, Clinical Optometry Practicum
3rd Year	Semester V — Advanced Refraction, Pediatric Optometry, Binocular Vision & Orthoptics, Ocular Pharmacology, Ophthalmic Dispensing, Clinical Optometry	Semester VI — Advanced Contact Lens, Low Vision Rehabilitation, Geriatric Optometry, Occupational Optometry, Public Health Optometry, Clinical Case Management
4th Year	Semester VII — Advanced Clinical Optometry, Ocular Pathology, Neuro-Optometry, Community Optometry, Research Methodology, Optometric Practice Management	Semester VIII — Specialty Contact Lenses, Advanced Binocular Vision, Low Vision Rehabilitation, Ophthalmic Diagnostics, Clinical Research, Comprehensive Clinical Practicum
5th Year	Clinical Internship — Ophthalmology, Refraction & Vision Care, Contact Lens Services, Pediatric Optometry, Low Vision Services, Community Eye Care, Hospital/Clinic Rotation	Compulsory Rotatory Internship / Clinical Training — Advanced Clinical Optometry, Ophthalmic Procedures, Patient Management, Community Eye Care, Case Documentation, Professional Practice

Programme Specialization

Possible specialization options:

- **Bachelor of Optometry — Clinical Optometry**
- **Bachelor of Optometry — Pediatric Optometry**
- **Bachelor of Optometry — Contact Lens & Corneal Care**
- **Bachelor of Optometry — Low Vision Rehabilitation**
- **Bachelor of Optometry — Binocular Vision & Orthoptics**
- **Bachelor of Optometry — Community & Public Health Optometry**
- **Bachelor of Optometry — Occupational Optometry**

Curriculum Details — Bachelor of Hotel Management and Catering Technology

Programme: Bachelor of Hotel Management and Catering Technology (BHMCT)

Programme Type: Undergraduate

Duration: 4 Years / 8 Semesters

Minimum Qualification: 12th Standard

Year	Odd Semester	Even Semester
1st Year	Semester I — Food Production Fundamentals, Food & Beverage Service, Front Office Operations, Housekeeping Operations, Hotel Engineering, Communication Skills	Semester II — Advanced Food Production, Food & Beverage Service Operations, Front Office Management, Housekeeping Management, Nutrition & Food Science, Hospitality Accounting
2nd Year	Semester III — Advanced Food Production, Bakery & Confectionery, Bar & Beverage Management, Hotel Front Office, Housekeeping Operations, Hospitality Marketing	Semester IV — Quantity Food Production, Food & Beverage Management, Accommodation Management, Hospitality Human Resource Management, Hospitality Law, Tourism Management
3rd Year	Semester V — Advanced Culinary Arts, Restaurant Management, Event Management, Hospitality Sales & Marketing, Financial Management, Hospitality Technology	Semester VI — International Cuisine, Advanced Beverage Management, Revenue Management, Hospitality Entrepreneurship, Tourism & Destination Management, Industrial Training
4th Year	Semester VII — Strategic Hospitality Management, Resort Management, Hospitality Operations Management, Quality Management, Digital Hospitality, Professional Elective	Semester VIII — Major Project, Hospitality Internship/Industrial Training, Hotel Management Seminar, Entrepreneurship, Professional Elective, Comprehensive Viva

Programme Specialization

Possible specialization options:

- **BHMCT — Hotel Management**
- **BHMCT — Food Production & Culinary Arts**
- **BHMCT — Food & Beverage Management**

- **BHMCT — Front Office Management**
- **BHMCT — Hospitality Operations**
- **BHMCT — Resort & Tourism Management**
- **BHMCT — Event Management**
- **BHMCT — Hospitality Entrepreneurship**

Curriculum Details — Bachelor of Pharmacy

Programme: Bachelor of Pharmacy (B.Pharm)

Programme Type: Undergraduate

Duration: 4 Years / 8 Semesters

Minimum Qualification: 12th Standard

Year	Odd Semester	Even Semester
1st Year	Semester I — Human Anatomy & Physiology I, Pharmaceutical Analysis I, Pharmaceutics I, Pharmaceutical Inorganic Chemistry, Communication Skills, Remedial Mathematics/Biology	Semester II — Human Anatomy & Physiology II, Pharmaceutical Organic Chemistry I, Biochemistry, Pathophysiology, Computer Applications in Pharmacy, Environmental Sciences
2nd Year	Semester III — Pharmaceutical Organic Chemistry II, Physical Pharmaceutics I, Pharmaceutical Microbiology, Pharmaceutical Engineering, Pharmacology I	Semester IV — Pharmaceutical Organic Chemistry III, Physical Pharmaceutics II, Medicinal Chemistry I, Pharmacology II, Pharmacognosy & Phytochemistry I, Pharmaceutical Jurisprudence
3rd Year	Semester V — Medicinal Chemistry II, Industrial Pharmacy I, Pharmacology III, Pharmacognosy & Phytochemistry II, Pharmaceutical Biotechnology, Quality Assurance	Semester VI — Medicinal Chemistry III, Pharmacology IV, Herbal Drug Technology, Biopharmaceutics & Pharmacokinetics, Industrial Pharmacy II, Pharmaceutical Marketing & Management
4th Year	Semester VII — Instrumental Methods of Analysis, Industrial Pharmacy III, Novel Drug Delivery Systems, Biostatistics & Research Methodology, Clinical Pharmacy, Elective	Semester VIII — Biostatistics & Research Project, Clinical Research, Pharmacovigilance, Drug Regulatory Affairs,

Year Odd Semester**Even Semester**

Community Pharmacy, Major
Project/Industrial Training

Programme Specialization

Possible specialization options:

- **B.Pharm — Pharmaceutical Sciences**
- **B.Pharm — Pharmaceutics**
- **B.Pharm — Pharmacology**
- **B.Pharm — Pharmaceutical Chemistry**
- **B.Pharm — Pharmacognosy**
- **B.Pharm — Clinical Pharmacy**
- **B.Pharm — Industrial Pharmacy**
- **B.Pharm — Pharmaceutical Biotechnology**

Curriculum Details — Bachelor of Physiotherapy

Programme: Bachelor of Physiotherapy (BPT)

Programme Type: Undergraduate

Duration: 5 Years + 6 Months Internship

Minimum Qualification: 12th Standard

For BPT, the curriculum can be structured as **4 academic years + 1 year of advanced clinical training + 6-month compulsory internship**, depending on the university's specific academic framework.

Year**Odd Semester****Even Semester****1st Year**

Semester I — Human Anatomy I,
Physiology I, Biochemistry, Fundamentals
of Physiotherapy, Psychology,
Communication Skills

Semester II — Human Anatomy II,
Physiology II, Exercise Therapy I,
Electrotherapy I, Biomechanics, Basic
Nursing & First Aid

Year	Odd Semester	Even Semester
2nd Year	Semester III — Pathology, Microbiology, Pharmacology, Exercise Therapy II, Electrotherapy II, Clinical Observation	Semester IV — General Medicine, General Surgery, Orthopedics, Exercise Therapy III, Electrotherapy III, Clinical Physiotherapy Practice
3rd Year	Semester V — Orthopedic Physiotherapy I, Neurological Physiotherapy I, Cardiopulmonary Physiotherapy I, Sports Physiotherapy, Research Methodology	Semester VI — Orthopedic Physiotherapy II, Neurological Physiotherapy II, Cardiopulmonary Physiotherapy II, Pediatric Physiotherapy, Geriatric Physiotherapy
4th Year	Semester VII — Advanced Orthopedic Physiotherapy, Advanced Neurological Physiotherapy, Cardiopulmonary Rehabilitation, Community-Based Rehabilitation, Prosthetics & Orthotics	Semester VIII — Advanced Clinical Physiotherapy, Sports Rehabilitation, Women's Health Physiotherapy, Rehabilitation Management, Evidence-Based Physiotherapy, Research Project
5th Year	Advanced Clinical Training — Orthopedics, Neurology, Cardiopulmonary Care, Pediatrics, Sports Rehabilitation, Community Rehabilitation, Clinical Case Management	Advanced Clinical Training / Clinical Practicum — Specialized Physiotherapy Practice, Patient Assessment, Rehabilitation Planning, Case Documentation, Professional Practice
Internship	6-Month Compulsory Internship — Orthopedics, Neurology, Cardiopulmonary, Pediatrics, Sports Medicine, Community Physiotherapy, Hospital/Clinical Rotation	—

Programme Specialization

Possible specialization options:

- **BPT — General Physiotherapy**
- **BPT — Orthopedic Physiotherapy**
- **BPT — Neurological Physiotherapy**
- **BPT — Cardiopulmonary Physiotherapy**

- **BPT — Sports Physiotherapy**
- **BPT — Pediatric Physiotherapy**
- **BPT — Geriatric Physiotherapy**
- **BPT — Community-Based Rehabilitation**
- **BPT — Women's Health Physiotherapy**
